# **MEZZANINE FLOOR**

mpty space in your premises can be turned into a useable asset, consider areas above machinery or above existing offices, all of these areas can be filled with a ADARSH platform which will maximise the space available.

Our mezzanine floors, manufactured here in our NEW DELHI PLANT have been installed throughout the country into a variety of warehouses, retail units and institutes and the Adarsh system is so flexible that it is an asset which can move whenever you do.

Our simple yet effective design mezzanine floors can be installed in around half the time of a traditional design and as all of the required components can be carried to the build area by hand no heavy lifting equipment is required. This means clearing the site of shelving and machinery is not longer an issue when you choose us.

Our Sales team offers advice on the design and location of staircases to ensure that your mezzanine floor installation will conform to current Building Regulations and we can apply on your behalf making the whole process simple and cost effective.

## TWO TIER MEZZANINE FLOOR

- A more economical solution than concrete
- Demountable and reusable
- Light transparent (with steel grid floors)
- Minimal additional pressure on the foundation floor
- Easy to build
- Easy to erect in existing buildings
- Free standing (No additional loads on building columns)

# TWO TIER RACKING WITH MEZZANINE FLOOR

### **SMALL PARTS RACKS**

darsh slotted angle helps you build an efficient framing system for a variety of uses Slotted Angle is the most versatile, time and cost effective construction material available for building shelving, cases, racks or any other type of structure.

Scientifically designed pattern slots are perfectly positioned for bolting pieces together at various angles without needing to drill holes. No special tools required but our slotted angle cutter cuts completely through with one fast easy stroke. Available with painted, Powder Coated & Hot Dipped Finish.

Our range of slotted angle racks offer ample space for storing number of items in an organised manner. They are given a charming look with used of perfect polish. We also offer these slotted angle racks in different designs and sizes as per the customer's demands.

Our Slotted angles considering its multipurpose uses, we have reduce the distance between the holes, which increases the number of bolting positions in an angle, without effecting its load bearing capacity.

### Slotted Angle racks are available in different types:

- Skeleton racks
- **Enclosed racks**
- Pigeon hole racks
- Panel frame racks
- Semi Enclosed Rack
